

RAGUL B

Data Analyst | Data Science Graduate

Bengaluru, India | raghuldominick07@gmail.com | +91 63812 81414 | linkedin.com/in/ragul-b-058155281 | github.com/24msrds

SUMMARY

Data Science postgraduate and dashboard-focused Data Analyst with hands-on experience turning large, structured datasets into clear, decision-ready insights. Skilled at building interactive Power BI and Tableau dashboards end-to-end — requirement gathering, data modelling, KPI design, and stakeholder reporting — backed by strong Python and SQL-based analysis. Experience spans financial data analysis, workforce and operations analytics, and applied ML/GenAI projects. AWS Certified Cloud Practitioner.

EXPERIENCE

Data Analytics Intern

Jun 2025 – Aug 2025

Share Market Profile

Coimbatore, India

- Analysed 10,000+ structured financial records using Python (Pandas, NumPy) and SQL to surface pricing patterns, correlations, and anomalies for stakeholder briefings.
- Reduced data quality defects by ~25% through systematic cleansing, preprocessing, and validation of financial datasets.
- Built Power BI dashboards for real-time KPI visualisation and executive reporting, used daily by a 4-member stakeholder group.
- Synthesised exploratory findings into concise, presentation-ready business summaries across Agile sprint cycles.

PROJECTS

RD AI – Multi-Modal GenAI Assistant | Python, Streamlit, Groq (LLaMA), SQLite, RAG

- Built and deployed a multi-modal AI assistant with LLaMA 3.3-70B, a DuckDuckGo/Wikipedia RAG pipeline, and multi-format document analysis (PDF, DOCX, XLSX, CSV) with persistent SQLite chat history.

ODI AI Team Selector | Python, PySpark, Scikit-learn, FastAPI, Plotly

- Analysed 50,000+ historical ODI records with PySpark, engineering 10+ performance metrics and a composite scoring model to support objective, data-driven team selection — presented as a research paper at INFUSE 2025, Jain University.

Virtual Server Monitoring & Performance Optimization | Python, Pandas, SQL, SQLite, Power BI

- Built an ETL pipeline processing 5,000+ server log records across 10+ VMs; threshold-based anomaly detection cut CPU-issue identification time by 60%, with an 8-visual Power BI report cutting manual oversight by 40%.

HR Analytics Dashboard | Python, Power BI, DAX, Power Query, Excel

- Consolidated 1,470 employee records into a 3-page Power BI dashboard with 6+ DAX measures and AI visuals (Key Influencers, Decomposition Tree), surfacing attrition drivers such as overtime and department-level trends.

Payroll Attendance Monitoring System | Power BI Desktop, Power Automate Desktop, Excel

- Automated attendance and payroll data consolidation from multiple source files, eliminating manual entry, and built a Power BI dashboard tracking absenteeism, overtime, and payroll discrepancies in real time.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Scikit-learn), SQL, R

Data Analysis: EDA, Statistical Analysis, Feature Engineering, Predictive Modelling, Hypothesis Testing

Visualisation: Power BI (DAX, Power Query), Tableau, Plotly, Matplotlib, Seaborn, Excel (Pivot Tables, Advanced Functions)

SQL & Databases: MySQL, PostgreSQL, SQLite — Joins, CTEs, Window Functions, Aggregations, Subqueries

Cloud & Tools: AWS Certified Cloud Practitioner, Git, GitHub, Jupyter Notebook, FastAPI, Streamlit

Soft Skills: Analytical Thinking, Decision Making, Communication, Attention to Detail, Time Management

EDUCATION

M.Sc. Data Science and Analytics — Jain (Deemed-to-be University), Bengaluru

2024 – 2026

CGPA: 7.3 / 10

B.Sc. Computer Technology — Hindusthan College, Coimbatore

2021 – 2024

CGPA: 7.9 / 10

CERTIFICATIONS & LANGUAGES

AWS Certified Cloud Practitioner | IBM Data Science Professional Certificate | INFUSE 2025 International Conference — Paper Presentation, Jain University

Languages: English | Tamil | Kannada
