

RAGUL B

Data Engineer | Data Science Graduate

Bengaluru, India | raghuldominick07@gmail.com | +91 63812 81414 | linkedin.com/in/ragul-b-058155281 | github.com/24msrds

PROFILE SUMMARY

Data Engineer with hands-on experience building ETL pipelines and large-scale data processing workflows — covering data ingestion, transformation, and pipeline design with Python, SQL, and PySpark. Strong foundation in data modelling and quality validation. AWS Certified Cloud Practitioner.

EXPERIENCE

Data Analytics Intern

Jun 2025 – Aug 2025

Share Market Profile — Coimbatore, India

- Built Python-based data pipelines processing 10,000+ structured financial records, applying preprocessing, validation, and transformation logic ahead of downstream reporting.
- Reduced data quality defects by ~25% through systematic cleansing and validation of financial datasets.
- Queried and modelled data with SQL to support Power BI dashboards used daily by a 4-member stakeholder group.
- Synthesised exploratory findings into concise stakeholder briefings within Agile sprint cycles.

PROJECTS

Virtual Server Monitoring & Performance Optimization | Python, Pandas, SQL, SQLite, Power BI

- Engineered a Python-SQL ETL pipeline ingesting 5,000+ server log records across 10+ VMs, with threshold-based transformation logic for anomaly detection.
- Reduced CPU-issue identification time by 60% through pipeline-driven data processing, feeding an 8-visual Power BI reporting layer.

ODI AI Team Selector | Python, PySpark, Scikit-learn, FastAPI

- Built a PySpark data processing pipeline over 50,000+ historical ODI records, engineering 10+ derived performance metrics at scale.
- Deployed the resulting model as a FastAPI service — presented as a research paper at INFUSE 2025, Jain University.

HR Analytics Dashboard | Python, Power BI, DAX, Power Query, Excel

- Consolidated and modelled 1,470 employee records via Power Query into a structured schema, authoring 6+ DAX measures for downstream analysis.
- Applied Power Query transformations to clean, deduplicate, and reshape raw HR source files into an analysis-ready dataset.

TECHNICAL SKILLS

Data Pipelines & Orchestration: ETL Pipeline Design, Airflow, dbt, Data Validation, Data Modelling

Big Data & Processing: PySpark, Distributed Data Processing, Kafka

Data Warehousing: Snowflake, BigQuery, Redshift

Programming: Python (Pandas, NumPy, Scikit-learn), SQL, R

SQL & Databases: MySQL, PostgreSQL, SQLite — Joins, CTEs, Window Functions, Aggregations, Subqueries

Infrastructure & Deployment: Docker, Kubernetes, CI/CD, FastAPI

Cloud & Tools: AWS Certified Cloud Practitioner, Git, GitHub, Jupyter Notebook

Visualisation: Power BI (DAX, Power Query), Excel (Pivot Tables, Advanced Functions)

Soft Skills: Analytical Thinking, Decision Making, Communication, Attention to Detail, Time Management

EDUCATION

M.Sc. Data Science and Analytics — Jain (Deemed-to-be University), Bengaluru

2024 – 2026

CGPA: 7.3 / 10

B.Sc. Computer Technology — Hindusthan College, Coimbatore

2021 – 2024

CGPA: 7.9 / 10

CERTIFICATIONS

AWS Certified Cloud Practitioner | IBM Data Science Professional Certificate | INFUSE 2025 International Conference — Paper Presentation, Jain University
